

# 2013 WWPC 24<sup>TH</sup> ANNUAL REGIONAL CONVENTION

*I really appreciate all your hard work organizing the effective meeting WWPC PHUKET. As usual and even in the big crowd you manage the things perfectly. One-on-One meeting is really very effective this time more agents and busy all 3 days and many interesting news around world came in one roof.*

*Your decision on TFS was amazing and it helped a lot to know more partners across the WWPC network and many other Network people ask about the WWPC and we certified about the professionalism and your leadership quality and how fast and big WWPC Family is growing. Initially we hesitated to attend and enroll our company for the TFS Meet, but we discovered we made the good decision.*

*We obtained some business and gained good friends from the non WWPC members after attending the TFS meeting.*

*Thank you and wish you all success in the coming year and, God willing, we will meet in BRAZIL 2014.*

*Looking forward to a long and strong relationship with you in the business*

*While our being true to our motto in Managing your cargo with care!!*

*The convention in Phuket was the best one I have ever attended in my shipping life, I met with so many business oriented counterparts, and very friendly peoples. I am sorry for past years that I did not attend. For the next convention, I will join with one of my sales managers.*

*Thank you so much Leslie for her hard job you managed in Phuket and thank you for business opportunities provided to Element Logistics,*

*Customs Clearance Ltd would like to congratulate WWPC on another excellent event in Thailand! We enjoyed attending and meeting so many clients, associates and other WWPC Member Partners. WWPC provides a superb environment for connecting with other freight industry businesses and we made many fruitful contacts.*

*One issue frequently raised in our discussions with freight forwarders, was that of ecommerce. Many forward-looking (no pun intended!) WWPC freight forwarders would like to get into this market but aren't sure how to go about it.*

*There's been a dramatic expansion in the global ecommerce market as laptops, smartphones and tablets have become widespread. CCL has implemented services specifically to support businesses engaged in ecommerce. We work with you; we're not a freight forwarder ourselves, so there's no competition, only partnership and expertise, keeping your shipments on the move. We can handle both imports and exports, via air and sea freight, and we can provide valuable services to the WWPC Members.*

We would like to thank WWPC for a warm welcome. We are a new member of the network, and were so pleasantly surprised with warm and cozy feeling of freight forwarding family that WWPC created over the years.

In our very first conference we have met great partners for our future development, and gained very valuable information about operations in other countries, whether it is customs handling practices, or freight routes. We really hope to become even more integrated into WWPC family as the years go by.

On a more personal note – both myself and Konstantin Efremidi, can vouch that “networking paradise style” is not just a catchy slogan. The Conference was truly set up in paradise and executed masterfully by Leslie and team.

SALCO would like to thank all WWPC members for the productive conversations, for their interest and trust in doing business with Brazil as well as for the warm reception we experienced in our first WWPC convention 2013 in Phuket and we are proud to make part of such a selected group of professionals of the forwarding industry. We were positively surprised about the variety of skills of those we have been talking to, especially in the project cargo field. We are honored that the next convention will take place in our home country and in the year of the Soccer World Cup 2014 and hope that this will be one more reason to strengthen our relationship within this network. We would like to thank you for the inquiries we have been getting so soon after the Phuket event and are thankful as well for the qualified responses to our own requests. Special thanks also to Leslie and her team for the excellent organization and for picking such a nice location with such great entertainment. See you next year in Salvador de Bahia ! Phuket was the first of the WWPC conference that I attended on behalf of EPL International Pty Ltd., though we were represented at earlier editions by my predecessors. The one-on-one networking session was very constructive and productive in building a number of relationships with like minded people in different organizations around the world. It also served to put a face to the many a name that we have been doing biz with or communicated with in the past but never met in person. I would certainly recommend other who have not had to opportunity to attend a WWPC conference in the past. I wish to thank all the participant who attended (some of whom I did not have the opportunity to network with one on one due to the paucity of time) for taking time off from the busy schedules to make the conference a huge success!

We wish to commend the WWPC network for their enthusiastically organized event in October 2013 in Phuket. The resoundingly successful conferences held over the last years certainly warranted a follow-up once again. And the good news is that this year, the event's organizers have decided to not just replicate their feat but outdo themselves as well. They have accomplished this by enhancing the conference Paradise style, allowing freight forwarders to become friends instead of just cooperating agents and embrace new agents to become friends, in an effort to allow more of them to benefit from this initiative.

The meeting was again largely attended and when an event such as this is a success, the credit starts with the planning committee. The fine work and realistic scheduling resulted in an in-formative and smooth running conference. Excellent planning enabled participants from all over the world to attend also the TFS in Bangkok in one go. This open and forward vision, to prioritize the businesses of its members, stands for the excellent operations of the WWPC network.

We would like to thank both of you once again for organizing yet another excellent conference. The arrangement was very comfortable and conducive for us to meet and network with all the attendees both formally and informally. The great part of WWPC Conference is the atmosphere and environment which is very relaxed that provides lots of time and opportunity for us to meet and network with other members. Besides Networking in Paradise Style in WWPC we are also able to "Make Friends Before Making Business" which builds the Trust that is crucial when dealing with international partners. This is surely one of the best conferences and we look forward to building business with our friends in the WWPC and remaining in this network for a long time.

First of all, Priority Freight Co., Ltd., as a host country for the WWPC 24th Convention Meeting in Phuket, we would like to say "Thank You and Appreciation" to our CEO, Leslie whom has chosen Thailand as a second round of the Network Meeting within 3 years. We are very much delighted to be selected and also we would like to welcome all of our global WWPC Member Partners to the "Land of Smile" from Land Down Under to North America, South American Continents as well as Europe and Asian Partners of total of 248 Delegates to be present at one place to meet and to share each and individual experiences during the meeting.

With such a short period of time, we have the opportunity to meet up almost 200 delegates during the meeting and the social events in which we have to say, this is quite awesome opportunity to learn and to develop our way of thinking and doing business. Without the Networks, this will never ever happen with such an opportunity to our members. The conference gives us to share our services and get to know each other which is the most important to know whom we are doing business with and learn to know how professional we are in the global network.

In this WWPC 24th Meeting, it shows how strong, united and professional WWPC and WWPC Members are. We would like to thanks to all the member Partners for their participation in the meetings and wishing WWPC become one of the most outstanding Networks in the Logistics Industry.

Again, thank you and we are very delighted as well as fortunate to be part of WWPC Family since 2007.

Sincerely Yours,

Firstly, it was our great pleasure to attend the annual meeting of WWPC again this year, to have meet with so many familiar and pretty faces, and we could find again that the association is growing-up day by day, which is really a encouraged signal to us, and brings us more determination to keep it up.

To catch the opportunity, we want to say thanks to Leslie for her hard and excellent work, which carries the whole association & family more actively and vividly as well.

Look forward to hearing back from any family member partners once available, and we look forward to building new business with our WWPC Member Partners.

*I want to give thanks to all of WWPC staff and management for the Convention that they arranged at Phuket because from my point of view was amazing. For me was the first Convention of my life inside of one agency network, and I check in situ that all of my fears that I had before to go, regarding if the old members will accept me or if will be difficult to make relations inside because the old members has special relationship from long time, etc... finally didn't accomplish and everything was successful, I made very good relations with everybody, now most of the members that assisted to Phuket now me and hope that business with them start soon.*

*Then, I only have good words to say to you and I'm waiting anxiously for the next Convention to meet more people and get to know others better.*

Everyone is still exchanging emails and discussing about WWPC conference at Phuket. It was first time that we attended WWPC conference but should confess that we heard praise from every member whom we met. It was success in every aspect – one to one meetings, venue, arrangements both inside and outside conference hall etc. RAZ Maritime Services, Saudi Arabia, congratulate Leslie Taylor and team for successful and memorable conference.

Excellent Leslie, you have done it again. It was another successful convention – Phuket 2013. I was very much impressed as we had almost 200 members who attended the convention. It was my first year being the member of WWPC and first time of joining WWPC conference in Phuket back in October.

Though I am the member of other network as well, I'd like to emphasize that this WWPC is very Unique and special one either the way Leslie organize the meeting, the quality of member, the friendship of each member extended, I'd never feel alone since there was party every evening.

From the aspect of business, I found agents who I can work and grow business from Thailand to worldwide and vice versa. It was always great to meet one from other part of the world and learn what services they are offering as we never know what are the next request from customers that we are to fulfill.

I also found agents who has the capability to provide services that I am looking for ie; Exhibition clearance, Oil & Gas etc which can fill up and make my future plan achievable and more perfect.

Thanks a Million to Leslie, Ron and every agent friend who made this conference worthwhile to remember both businesswise and personal wise.

Looking forward to Seeing Everyone again
